He will consult and advise with the Council in advance of the issuance of orders on matters of substance, the exigencies of the situation permitting. His decisions upon these matters shall be controlling.
6. If, regarding the implementation of policy decisions of the Far Eastern Commission on questions concerning a change in the regime of control, fundamental changes in the Japanese constitutional structure, and a change in the Japanese government as a whole, a member of the council disagrees with the Supreme Commander (or his deputy), the Supreme Commander will withhold the issuance of orders on these questions pending agreement thereon in the Far Eastern Commission.

Page 153

Japanese Government, or concerning the filling of vacancies created by the resignation of individual cabinet members, after appropriate preliminary consultation with the representatives of the other allied powers on the allied council.

III. KOREA

1. With a view to the re-establishment of Korea as an independent state, the creation of conditions for developing the country on democratic principles and the earliest possible liquidation of the disastrous results of the protracted Japanese domination in Korea, there shall be set up a provisional Korean democratic government which shall take all the necessary steps for developing the industry, transport, and agriculture of Korea and the national culture of the Korean people.
2. In order to assist in the formation of a provisional Korean Government and with a view to the preliminary elaboration of the appropriate measures, there shall be established a joint commission consisting of representatives of the United States Command in Southern Korea and the Soviet Command in Northern Korea. In preparing their proposals the commission shall consult with the Korean Democratic parties and social organizations. The recommendations worked out

by the commission shall be presented for the consideration of the Governments of the Union of Soviet Socialist Republics, China, the United Kingdom and the United States prior to final decision by the two governments represented on the joint commission.

3. It shall be the task of the joint commission, with the participation of the provisional Korean democratic government and of the Korean democratic organizations to work out measures also for helping and assisting (trusteeship) the political, economic and social progress of the Korean people, the development of democratic self-government and the establishment of the national independence of Korea.

The proposals of the joint commission shall be submitted, following consultation with the provisional Korean Government for the joint consideration of the Governments of the United States, Union of Soviet Socialist Republics, United Kingdom and China for the working out of an agreement concerning a four-power trusteeship of Korea for a period of up to five years.

Page 154

economic matters between the United States Command in Southern Korea and the Soviet Command in Northern Korea, a conference of the representatives of the United States and Soviet commands in Korea shall be convened within a period of two weeks.

IV. CHINA

The three Foreign Secretaries exchanged views with regard to the situation in China. They were in agreement as to the need for a unified and democratic China under the national government, for broad participation by democratic elements in all branches of the national government, and for a cessation of civil strife. They reaffirmed their adherence to the policy of noninterference in the internal affairs of China.

Mr. Molotov and Mr. Byrnes had several conversations concerning Soviet and American armed forces in China.

Mr. Molotov stated that the Soviet forces had disarmed and deported Japanese troops in Manchuria, but that withdrawal of Soviet forces had been postponed until Feb. 1 at the request of the Chinese Government.

Mr. Byrnes pointed out that American forces were in North China at the request of the Chinese Government, and referred also to the primary responsibility of the United States in the implementation of the terms of surrender with respect to the disarming and deportation of Japanese troops. He stated that American forces would be withdrawn just as soon as this responsibility was discharged or the Chinese Government was in position to discharge the responsibility without assistance of American forces.

The two Foreign Secretaries were in complete accord as to the desirability of withdrawal of Soviet and American forces from China at the earliest practicable moment consistent with the discharge of their obligations and responsibilities.

V. RUMANIA

The three governments are prepared to give King Michael the advice for which he has asked in his letter of August 21, 1945, on the broadening of the Rumanian Government. The King should be advised that one member of the National Peasant Party and one member of the Liberal Party should be included in the Government. The commission referred to below shall satisfy itself that:

(A) They are truly representative members of the groups of the parties not represented in the government;

Page 155

(B) They are suitable and will work loyally with the government.

The three governments take note that the Rumanian Government thus recognized should declare that free and unfettered elections will be held as soon as possible on the basis of universal and secret ballot. All democratic and anti-fascist parties should have the right to take part in these elections and to put forward candidates. The reorganized government should give assurances concerning the grant of freedom of the press, speech, religion, and association.

A. Y. Vyshinski, Ambassador Averell Harriman, and Sir A. Clark Kerr are authorized as a commission to proceed to Bucharest immediately to consult with King Michael and members of the present government with a view to the execution of the above-mentioned tasks.

As soon as these tasks are accomplished and the required assurances have been received, the Government of Rumania, with which the Soviet Government maintains diplomatic relations, will be recognized by the government of the United States of America and the Government of the United Kingdom.

VI. BULGARIA

It is understood by the three Governments that the Soviet Government takes upon itself the mission of giving friendly advice to the Bulgarian government with regard to the desirability of the inclusion in the Bulgarian Government of the Fatherland Front, now being formed, of an additional two representatives of other democratic groups, who (a) are truly representative of the groups of the parties which are not participating in the government, and (b) are really suitable and will work loyally with the Government.

As soon as the Governments of the United States of America and the United Kingdom are convinced that this friendly advice has been accepted by the Bulgarian Government and the said additional representatives have been included in its body, the Government of the United States and the Government of the United Kingdom will recognize the Bulgarian Government, with which the Government of the Soviet Union already has diplomatic relations.

VII. ESTABLISHMENT BY THE UNITED NATIONS OF A COMMISSION FOR CONTROL OF ATOMIC ENERGY

Discussion of the subject of atomic energy related to the question of the establishment of a commission by the General Assembly of the United Nations. The Ministers of Foreign Affairs of the Union of Soviet Socialist Republics, the United States of America, and the United Kingdom have agreed to recommend, for the consideration of the General Assembly of the United Nations, the establishment by the United Nations of a commission to consider problems arising from discovery of atomic energy and related matters. They have agreed to invite the other permanent members of the Security Council, France and China, together with Canada to join with them in assuming the initiative in sponsoring the following resolution at the first session of the General Assembly of the United Nations in January 1946:

"Resolved, by the General Assembly of the United Nations, to establish a commission, with the composition and competence set out hereunder, to deal with the problems raised by the discovery of atomic energy and other related matters.

"I. Establishment of the commission. A commission is hereby established by the General Assembly with the terms of reference set out under Section V below.

"II. Relations of the commission with the organs of the United Nations (A) The Commission shall submit its reports and recommendations to the Security Council, and such reports and recommendations shall be made public unless the Security Council, in the interests of peace and security, otherwise directs. In the

appropriate cases the Security Council should transmit these reports to the General Assembly and the members of the United Nations, as well as to the economic and social council and other organs within the framework of the United Nations.

"(B) In view of the Security Council's primary responsibility under the charter of the United Nations for the maintenance of international peace and security, the Security Council shall issue directions to the Commission in matters affecting security. On these matters the Commission shall be accountable for its work to the Security Council.

"III. Composition of the Commission. The Commission shall be composed of one representative from each of those states represented on the Security Council, and Canada, when that

Page 157

state is not a member of the Security Council. Each representative on the Commission may have such assistants as he may desire.

"IV. Rules of procedure. The Commission shall have whatever staff it may deem necessary, and shall make recommendations for its rules of procedure to the Security Council, which shall approve them as a procedural matter.

"V. Terms of reference of the commission. The commission shall proceed with the utmost dispatch and inquire into all phases of the problem, and make such recommendations from time to time with respect to them as it finds possible. In particular the commission shall make specific proposals:

"(A) For extending between all nations the exchange of basic scientific information for peaceful ends;

"(B) For control of atomic energy to the extent necessary to ensure its use only for peaceful purposes;

"(C) For the elimination from national armaments of atomic weapons and of all other major weapons adaptable to mass destruction;

"(D) For effective safeguards by way of inspection and other means to protect complying states against the hazards of violations and evasions.

"The work of the Commission should proceed by separate stages, the successful completion of each of which will develop the necessary confidence of the world before the next stage is undertaken.

"The Commission shall not infringe upon the responsibilities of any organ of the United Nations, but should present recommendations for the consideration of those organs in the performance of their tasks under the terms of the United Nations Charter."
