COMMAND HISTORY

COMMANDER

U.S. NAVAL FORCES, KOREA

#### UNCLASSIFIED

Commander, U.S. Naval Forces, Korea 1986 Command History

#### MISSION

The Commander, U.S. Naval Forces, Korea (COMNAVFORKOREA), provides administrative, intelligence, operational, logistical and communications support to elements of the Pacific Fleet, both ashore and afloat, in accordance with CINCPACFLT OPORDER 201, and functions as the Regional Coordinator for Naval personnel in Korea in accordance with CINCPACFLTINST 5400.12. In addition COMNAVFORKOREA serves as Commander, Naval Component Command, U.S. Forces, Korea; Commander, Combat Coordination Group, Korea; Senior Member, United Nations Command Component Military Armistic Commission; Commander United Nations Naval Component, and Deputy Commander, Naval Component Command, Republic of Korea/U.S. Combined Forces Command.

## CHANGE OF COMMAND

A Change of Command ceremony was conducted on 15 October 1987. Rear Admiral William T. Pendley, USN, relieved Rear Admiral Charles F. Horne, III, USN. Lieutenant General Jack I. Gregory, USAF, made key remarks and presented Rear Admiral Horne with the Defense Distinguished Service Medal. Rear Admiral Horne was also awarded the Republic of Korea SAM-IL Medal (Second Class) by Minister of National Defense, Lee, Ki Baek.

#### ADMINISTRATIVE DEPARTMENT

The Administrative Department prepared 220 awards for presentation, of which 3 were Legions of Merit, 21 Defense Meritoreous Service, 1 Defense Distinguished Service Medal, 31 Joint Service Commendations, 1 Joint Service Achievement Medal, 4 Navy Commendations, 38 Navy Achievement, 2 Meritorious Service, 37 Letters of Commendation, 41 Letters of Appreciation and 41 Certificates of Appreciation.

#### INTELLIGENCE

The upgrade on the COMNAVFORKOREA Detachment Combined Naval Intelligence Center (CNIC) continued with the arrival of seven additional Intelligence Specialists and DIA's approval of the concept proposal for the Special Intelligence Communication (SPINTCOMM) upgrade. CNFK Intelligence Officer coordinated the visit of the ROKN DCNO for Intelligence to Intelligence conferences in Hawaii and Washington, D.C. Additionally, CNFK N2 coordinated visits to Korea by the Director of Naval Intelligence and the CINCPACFLT N2. Improved USN/ROKN interoperability continued through increased efforts in Foreign Disclosure. A Recognition Guide (NWPAC AIR RECOGNITION) was produced and distributed to the ROKN Airwing, the ROKAF, and the USAF.

#### LOGISTICS AND SUPPLY

Significant improvements were made in the logistical support for U.S. Navy and U.S. Marine Corps units serving in Korea.

COMNAVFORKOREA coordination and action resulted in highly successful logistics support for the COMNAVFORKOREA Logistics Detachment, Taegu for TEAM SPIRIT 86, for the first ever Battleship Battle Group port visits to Inchon, and for USMC deployments at Yechon and Pohang for TEAM SPIRIT, at Uncheon for BEAR HUNT 86, and numerous single unit training deployments.

A joint ROKN/USN/USMC inspection determined that the TACAIR POL facilities at Yechon and Pohang were not usable for safe flight operations. Direct involvment by the CINC UNC/CFC and continuous pressure from CNFK, USFK, and CFC resulted in the correction of major electrical deficiencies and limited availability of the POL facilities. Both Yechon and Pohang should be fully operational by June 1987.

ROKN completed construction of 16 aircraft revetments at Pohang in December.

A white paper on ROK Navy logistics was prepared and given to the Commander, Naval Logistics Command, ROKN in February. The whit paper made ten recommendations for introducing improvements in the logistics and supply operations of the ROKN. Of the ten recommendations, the ROKN took aggressive action on three and studied or delayed action on the remaining seven. Funding constraints prevent adoption of some recommendations.

Logistics play during ULCHI FOCUS LENS 86 confirmed that there has been progress during the past year. There remains an unrealistic dependence on USN support but it appears that the ROKN is planning for long range improvements. ROKN day to day supply procedures remain poor.

DOD promulgated its draft implementing instructions for the follow-on Memorandum of Agreement in October. CNO finished the draft USN implementing instructions in December. A joint USN/ROKN implementing instruction should be completed by May 1987.

The Navy Enlisted Mess, Open was changed to a Consolidated Mess. Commonly called the Navy Club, the change was made to properly reflect its clientele. A major renovation to the Navy Club was completed in August. The renovation nearly doubled the seating capacity, separated the bar area from the main dining area, and provided for a non-smoking and smoking section.

A major renovation of building 1661, one of two enlisted barracks, was completed in October. The renovation provided for more standardized floor space, centralizing air conditioning, and better building insulation.

### COMMUNICATIONS

The focus of the 1986 effort has been to continue to enhance both joint and combined communications interoperability. Tactical secure voice and procedural improvements were effected through the CPICK Program and the development of change one to annex Kilo to the ACOMSEVENTHFLT/ROKNAVY SOP. Efforts included:

Use of a Vinson Satellite terminal to provide secure connectivity between COMSEVENTHFLT and the CINC in March 1986 for TEAM SPIRIT 86.

Installation of a Fleet Secure Voice Terminal in the HTACC at Osan AB to provide secure voice connectivity between the USN and the USAF in July 1986.

Design, approval from NSA, and development of an SY-28 interface device to facilitate Nestor and Vinson secure voice crypto operation onboard ROKN ships.

Renovation and expansion by staff personnel of the DNCC Comm Center at CP TANGO.

Development of an extensive Communications plan for use by the USN and ROKN for operations support of the Asian Games held in Seoul in September and October 1986.

Relocation of the classified material destruction device adjacent to the CNFK Headquarters building.

Removed the WWMCCS terminal in response to guidance provided by the CINCPACFLT IG, saving money, increasing security, and saving space and training requirements.

Coordinated the cutover to the new telephone electronic switch by the Army in October 1986, drastically improving the quality of phone service within Korea, as well as Autovon.

On 05 August, 1986 RMCS(SS) Thomas W. Kitzmiller relieved LCDR Seth Pillsbury as Assistant Chief of Staff for Communications, pending arrival of the detailed officer. On 31 August, 1986 LCDR Walter R. Maxwell reported aboard and relieved RMCS(SS) Kitzmiller on 12 September 1986.

## NAVY MEDICAL REPRESENTATIVE

During 1986, the COMNAVFORKOREA Medical Representative saw 3200 patients, including 245 USMC personnel. In addition, medical liasion and support services were provided for Exercises BEAR HUNT and TEAM SPIRIT. Implemented AIDS testing program for all U.S. Navy and Marine Corps personnel in Korea.

## COMREL AND PROJECT HANDCLASP

1986 was a prosperous year for the command sponsored orphanage.

In May the USS NEW JERSEY Battle Group arrived bringing large quantities of food, clothing, medical supplies and various children's items as part of "Project Handclasp". These items were a much needed addition to the daily routine.

In July command personnel purchased and replaced kitchen and bathroom floor tile. They also upgraded the electrical circuits and heating systems.

The command started a "Big Brother-Big Sister" program in August. This program is working well.

The USS NEW JERSEY Battle Group returned in September and again brought with them "Project Handclasp" materials for the orphanage. During this time, painting and various construction of cabinents was completed. At this time, the battle group entertained the children with clown and magic acts.

In November and December, the command sponsored the annual Thanksgiving and Christmas parties at the local Navy Club.

## PUBLIC AFFAIRS

1986 was a productive and busy year. In February a port call by USS BLUE RIDGE to Inchon generated a large media response with stories appearing in print and on electronic medias. The USS NEW JERSEY Battle Group, on a Western Pacific cruise, made port calls at Inchon in May and September. News media interest was high as this was the ship's first visit to Korea since the 1950's conflict.

Community Relations, personnel features, photography and the command newspaper were projects that kept public affairs busy during the year.

The major project of the year was the change of command at CNFK. Brochures and over 1200 invitations along with news releases and photography were handled by PAO.

The highlight of the year was the annual Navy Birthday celebration in Seoul and Chinhae in which PAO played a major part in support of both.
