APSNet for 20061009

Austral Peace and Security Network (APSNet)

Twice weekly report from the Nautilus Institute at RMIT, Australia.

Monday 9 October 2006

1. PM Condemns N Korea Nuclear Test
2. Bring Troops Home from Iraq Now: Poll
3. A New Diplomacy over Papua
4. Indonesia: Acquittal Bolsters Impunity for Munir's Murder
5. Charges over Timor Violence
6. Climate Change: Shock Report
7. Pope Urges Australians: Confront Aboriginal Pain

1. PM Condemns N Korea Nuclear Test, Australian, 2006-10-09Australia plans to lobby the UN Security Council to take "swift and effective" action against North Korea. "We will * advocate a UN Security Council regime against the DPRK (Democratic People's Republic of Korea) that includes targeted financial and travel sanctions, other trade restrictions and/or aviation restrictions", Mr Howard said.

2.
3. Bring Troops Home from Iraq Now: Poll, Michelle Grattan, Age, 2006-10-09Nearly six in ten people say Australia should withdraw troops from Iraq, as Labor surges ahead of the Government on primary votes in the ACNielsen/Age poll.
4. A New Diplomacy over Papua, Paul Kelly, Australian, 2006-10-07The Howard Government must rethink its policy towards Papua to prevent tensions or even hostilities with Indonesia. This warning comes in a paper from the Lowy Institute that finds the Papuan debate in Australia is characterised by "utopian thinking, dangerous demands and misguided analysis". These have the potential to damage Papua, threaten Australia-Indonesia relations and undermine Australia's security.Pitfalls of Papua, Understanding the Conflict and Its Place in Australia-Indonesia Relations, Rodd McGibbon, Lowy Institute Paper No. 13, October 2006 [PDF]

5.
6. Indonesia: Acquittal Bolsters Impunity for Munir's Murder, Press Release: Human Rights Watch, 2006-10-07The Indonesian Supreme Court's acquittal of the only person convicted for the murder of leading human rights activist Munir Said Thalib highlights the failure of the Indonesian justice system to combat impunity, Human Rights Watch said today. The Supreme Court decision on October 3 to overturn the conviction means that no one has been convicted for the killing, despite compelling evidence of a conspiracy.

7.
8. Charges over Timor Violence, Tom Hyland, Age, 2006-10-08A UN inquiry into the violence in East Timor this year is set to name up to 100 people, including senior political and security force figures, in scathing findings that recommend some should face criminal charges. The report is believed to expose a total collapse of government control, with no one in charge of key institutions by the time the shooting started. The report should be tabled this week.
9. Climate Change: Shock Report, Rosslyn Beeby, Canberra Times, 2006-10-09Leading aid agencies are calling for an urgent review of Australia's immigration program, warning millions of people in the Asia-Pacific region will be left homeless by climate change in the next 40 years. According to a CSIRO report, commissioned by the national Climate Change and Development Roundtable, more than 150,000 million people in the Asia-Pacific region would be displaced by rising sea levels by 2050.

10.
11. Pope Urges Australians: Confront Aboriginal Pain, Carmel Egan, Age, 2006-10-08In a powerful speech delivered by his representative at a gathering of Aboriginal Catholics in Alice Springs, the pontiff warned that no one could be exempt from reconciliation if Australia was to achieve a harmonious future. His words come after Prime Minister John Howard identified the stand against the "black armband view" of Australian history as the most important of the causes close to his heart.
