Research studies

Desmond Ball, Bill Robinson, Richard Tanter and other colleagues have published a series of closely documented research studies on Pine Gap. As of February 2016, the studies published in [The Pine Gap Project](#) include the following:

Desmond Ball, Bill Robinson and Richard Tanter, [The Antennas of Pine Gap](#), Nautilus Institute, Special Reports, 18 February 2016.

The most authoritative source on Pine Gap over many years has been the work of [Professor Desmond Ball](#) of the Australian National University.

The best single introduction, though now outdated, to the Joint Defence Facility Pine Gap remains the Report of the Joint Standing Committee on Treaties, Parliament of the Commonwealth of Australia, October 1999 on [An Agreement to extend the period of operation of the Joint Defence Facility at Pine Gap](#), ([pdf](#)) and the testimonies to that committee by [Desmond Ball and Paul Dibb](#).
