Richard Tanter, "Satellite Ground Station - East, Kapooka", Australian Defence Facilities, November 13, 2024, <https://nautilus.org/briefing-books/australian-defence-facilities/satellite-ground-station-east-kapooka/>

The Satellite Ground Station - East is a primary ground station in the [ADF Defence Satellite Communications System](#), constructed between 2018 and 2020 under Defence project JP2008 Phase 5B2. SGS-East is a companion to Satellite Ground Station - West subsequently constructed in the north-west compound of the [Australian Defence Satellite Communications Station](#) at Kojarena, WA.

The facility is located on the southern edge of Kapooka Army Base, NSW, at -35.168220°, 147.270250°.

The SGS-W includes three 12-13 m. diameter parabolic satellite communications antennas and a large building, and two apparently cylindrical structures.
