Energy Security

LIDSKY, Lawrence M., MIT

Nuclear Power in a World with Options

[pdf version](#)

Argues that nuclear power safety concerns can be alleviated if the technology other than light water reactor (LWR) technology is used.

Renewable Energy

WILLIAMS, Jim, et al, Nautilus Institute

The wind farm in the cabbage patch

[html version](#)

Describes Nautilus Institute's [Renewable Energy Project](#) in North Korea, in which a team of American energy specialists and their North Korean counterparts install seven wind generators, which provide power to the village clinic, kindergarten, and 20 households.
