1. DPRK Nuclear Program

CBC World News ("U.S., CHINA TRY TO COMPROMISE ON NORTH KOREA TEXT AT NUCLEAR AGENCY MEETING", 2005-09-29) reported that a split between the PRC and the four other countries that negotiated with the DPRK on scrapping its nuclear arms could doom efforts to come up with a resolution welcoming the DPRK's decision at a meeting of the International Atomic Energy Agency, diplomats said Thursday.

2. US on DPRK Nuclear Program

Xinhua ("US OPPOSES GRACE PERIOD FOR ENDING DPRK NUCLEAR ARMS PROGRAM", 2005-0-29) reported that according to Christopher Hill, the US objects a demand by Pyongyang for an interim period allowing a freeze of their nuclear operations ahead of the dismantlement. "I have just told the North Koreans ... (they) raised the idea (of) what can be done about putting the interim measure, a freeze measure. I told them I am not interested," Hill said.

Voice of America ("PAKISTAN CALLS NORTH KOREA NUCLEAR TIES 'A CLOSED CHAPTER'", 2005-09-29) reported that according to Pakistan's prime minister, his country has shared the limited information it has about DPRK's nuclear program with the ROK. He added that his government is in favour of a nuclear-free Korean peninsula. He said that all the information Islamabad had about DPRK's nuclear weapons programs had already been given to officials in Seoul. "As regards any relationship or interaction with DPRK, we have none," he said. "This is a closed chapter. We have not much knowledge at all about their nuclear program."

4. US, ROK Korean Peace Talks

The Korea Times ("JAPAN COULD JOIN KOREAN PEACE REGIME TALKS", 2005-09-29) reported that Christopher Hill, the US assistant secretary of state, hinted on Wednesday that Japan could be involved in discussing a peace regime on the Korean Peninsula. However, a high-ranking Seoul official said Thursday that there is "no possibility" of Japan joining the peace talks. The Seoul official downplayed Hill's remarks, saying that the US envoy might have wanted to underline Washington's alliance with Tokyo, which is within the boundary of Pyongyang's possible missile attacks. The six parties said in a joint statement of principles issued in Beijing on Sept. 19 that the ``directly related

parties'' will negotiate a permanent peace regime on the Korean Penninsula at an appropriate separate forum.

Vice Unification Minister Rhee Bong-jo also said the DPRK had invited more than 170 RO Koreans for an unprecedented investor relations event in the DPRK in October. Korea Net ("S. KOREA NEEDS TO LAY GROUNDWORK FOR REUNIFICATION: PANEL", 2005-0-28) reported that in a meeting presided over by President Roh Moo-hyun at Cheong Wa Dae, the Presidential Committee on the Northeast Asian Cooperation Initiative stressed that the six party talks need to be developed into a multinational security-economy forum. The lessons that its neighbours could take from the European experience include integration, a multi-dimensional and neo-functionalistic approach to deepen the level of integration on a gradual basis. Seoul should pursue the inauguration of a joint consultation body of the region first centred on feasible areas, work out cooperation projects that could serve for peace in the region and, thereby, lay the groundwork for the reunification of the two Koreas.

The global maritime industry can not prosper unless Washington stops its interference in the maritime sector, the Minju Joson, a newspaper published by the DPRK's Cabinet, claimed. "The U.S. is stepping up its efforts to control strategically important straits under the deceptive signboard of fighting terrorism," it said in a commentary to mark World Maritime Day. In the latest set of rules, published Sept. 10 by the State Administration of Radio, Film and Television, was a less obvious stipulation: Masters of ceremony should always use standard Mandarin Chinese and should stop affecting Hong Kong or Taiwanese slang and accents.
