

East Asian Science and Security Collaborative Planning Meetings  
May 15 – May 20, 2005  
Beijing, China

Schedule of Meetings, Overall Topics, and Projected Participants

**15 May**

**Time:** 16:00 (likely) through Dinner

**Topics:** Overview of EASSC project, discussion of topics to be discussed and what plans need to be made, including TMD/GD-FOIA work, DPRK energy needs, and discussions of the future of nuclear fuel cycle (including Pu recycle, use of MOx fuel, management of existing stockpiles of reprocessed fuels, advanced fuel cycles) and of spent fuel management, and how to incorporate analysis of these issues into the EASSC project this year and in the coming years.

**Attendees:** Tatsujiro Suzuki, Kae Takase, Tadahiro Katsuta, Li Bin, David Von Hippel, Peter Hayes, Jungmin Kang, Richard Tanter, Scott Bruce

**16 May**

**Time:** 9:00 – 12:30

**Topics:** Discussions primarily of issues related to export control of nuclear and dual-capable technologies.

**Attendees:** Tatsujiro Suzuki, Tadahiro Katsuta, Li Bin, Peter Hayes, Richard Tanter, Jungmin Kang

**17 May**

**Time:** 9:00 – 12:30

**Topics:** Continue discussions begun on the afternoon of May 15<sup>th</sup>, concluding with a rough draft workplan for at least the first EASSC year for all issues, including coordination of EASSC and AES research on issues related to AES 2006 topics (nuclear waste management and nuclear fuel cycles), to be elaborated by designated individuals. (Note that some elements of the workplan will be fleshed out in the meeting on May 20<sup>th</sup>).

**Attendees:** Tatsujiro Suzuki, Kae Takase, Tadahiro Katsuta, Li Bin, David Von Hippel, Peter Hayes, Jungmin Kang, Richard Tanter

**20 May**

**Time:** 9:00 – 12:30, followed by lunch, and continuing in the afternoon through approximately 17:00

- Topics:** 20th: DPRK/ROK energy and nuclear power issues as they relate to energy security in East Asia, including discussions of collaborative work on DPRK/ROK energy modeling (nuclear and conventional fuels, review of the LEAP DPRK and ROK energy paths, thinking about "next steps" in DPRK and ROK energy modeling, how to distribute work among the working group, and the connections between AES and EASSC efforts in Korean energy futures work. Will culminate in a draft workplan for this phase of the EASSC work.
- Attendees:** David Von Hippel, Peter Hayes, Jungmin Kang, Richard Tanter, Others from DPRK delegation,
