ROK CIA Director LEE Hu Rak visited the North between 2-5 May and met with Premier KIM Il Sung and his younger brother KIM Young Joo. NK Second Vice Premier PARK Sung Chul made a visit to Seoul 29 May-1 Jun to meet with President PARK Chung Hee. The seven-point agreement included provisions for the establishment of a hot line between the two nations and a mutual promise to refrain from armed provocation and propaganda defamation. Its ultimate goal is reunification of the Korean peninsula, divided for 27 years. One point of contention is the presence of 40,000 US forces in the ROK which the North wants withdrawn. The detente surprises the world in view of the depth of enmity that has separated the two countries.
