## FOREWORD

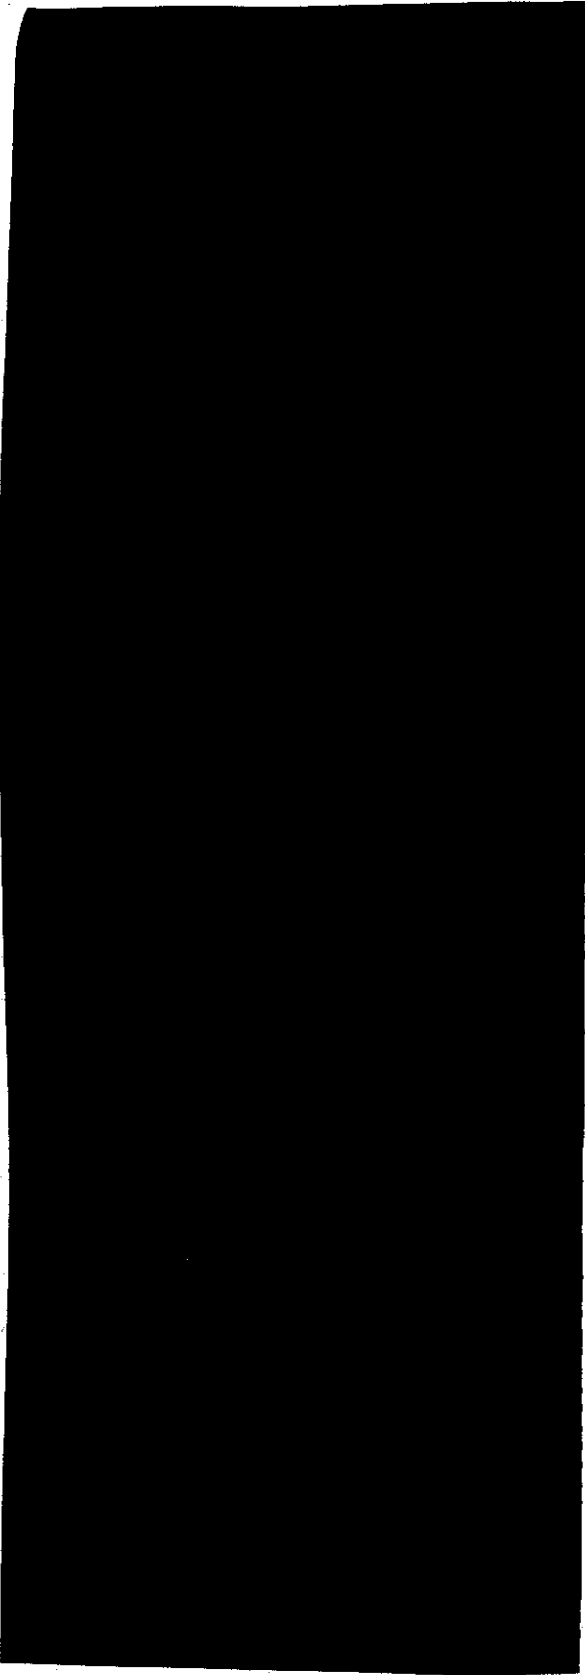

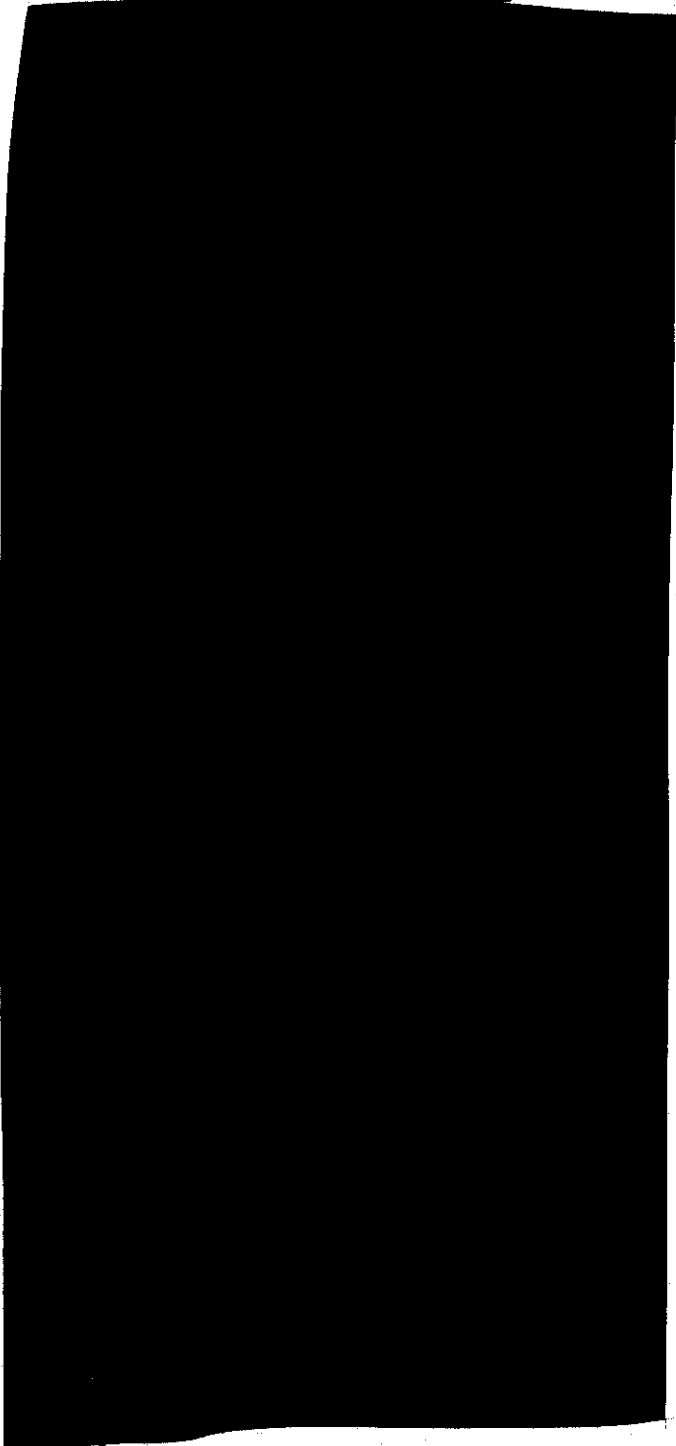

(U) This study has been fully coordinated with the Directorates for Current Intelligence and Estimates.

(U) Each classified title and heading has been properly marked; all those unmarked are unclassified.

(U) Copyright Warning: Further dissemination of the photographs in this publication is not authorized.

(U) Questions and comments concerning this publication should be referred in writing to the Defense Intelligence Agency (ATTN: DB-2C), Washington, DC 20340-0001. Requests for additional copies should be forwarded through command approval channels, as appropriate, to DIA (ATTN: RTS-2C), in accordance with DIA Manual 59-1, *Intelligence Dissemination / Reference Series*.

(Reverse Blank)

(U) As the Commander in Chief of the Armed Forces has directed, the Navy, including the Marine Corps and Fleet Air Unit, seeks to increase strength, readiness, and support government development programs.

### Composition

(U) The 212 dry cargo ships (193 breakbulk, 14 passenger and cargo, and 5 container ships) have a combined lift capacity of approximately 812,800 metric tons. Of these, 8 have a single boom lift in excess of 40 tons, 135 have large hatches (15 meters or longer), and 8 combine these important military characteristics. Sixty-nine petroleum tankers are smaller in size (less than 50,000 dwt) and provide an estimated total capacity of about 5,519,100 barrels (US). Chemical tankers provide an additional 46,500 barrels (US), but their military potential is limited. The highly subdivided tank structures and isolated pumping configurations of chemical tankers may interfere with efficient loading and discharging of fuel. However, they can carry multiple grades simultaneously and may provide

superior support to operating forces. The edible products tankers, while capable of carrying petroleum products, would be most useful as potable water carriers. The 3 roll-on/roll-off (RO/RO) vessels, totalling 4,900 dwt, have cargo booms to offload deck cargo, further enhancing their potential.

## Appendix C

### Glossary of Terms and Acronyms

ABRI	Armed Forces of the Republic of Indonesia
AIRUD	Air and Sea Police
AKABRI	Armed Forces Academy
ARMABAR	Western Fleet
ARMATIM	Eastern Fleet
ASRENA KASEL	Assistant for Plans and Budget
BAIS	Strategic Intelligence Body
BARTMATAL	Director, Western Area Material Depot
BEKAL	Director of Supply Systems
DAN DENMABESAL	Commander, Headquarters Detachment
DAN KOLINLAMIL	Commander, Military Sea Traffic Command
DAN KORMAR	Commander, Marine Corps
DAN SESKOAL	Commander, Naval Staff School
DELOP KASAL	Deputy for Logistics
DEOPS KASAL	Deputy for Operations
DIRADAL	Director for Procurement
DIRBEKAL	Director of Supplies
DIRDIKAL	Director of Education
DIRFASLANAL	Director of Naval Bases
DIRKESAL	Director of Health
DIRKOMLEKAL	Director of Communications and Electronics
DIRMATAL	Director of Material
DIRMINPERSAL	Director of Personnel Administration
DIRPAMAL	Director of Naval Security
DIRWATPERSAL	Director of Personnel Welfare
DITINTEKPAM	Intelligence and Security Directorate
DPERS KASAL	Deputy for Personnel
FASBEKAL	Director of Facilities
GUSKAMLA	Chief of Staff, Sea Security Task Group
HANKAM	Defense Ministry
IPTN	Indonesian Aircraft Industry
IRBIN ITJENAL	Inspector General for Management
IROPS ITJENAL	Inspector General for Operations
KADISHIDROS	Chief of Oceanographic and Hydrographic
KADISLITBANGAL	Chief of Research and Development
KADISKUAL	Chief of Financial Service
KADISNERBAL	Chief of Naval Air
KADISPENAL	Chief of Information Service
KADISPULLATAL	Chief of Data Collection and Processing
KAJANKESAL	Chief of Medical Services
KAJANMATAL	Chief of Navy Material
KA. HUPA DITPAMAL	Foreign Liaison Officer
KOLATARMA	Fleet Training Command
KODIKAL	Naval Training Command
PANN	National Merchant Fleet Development Corporation
PMS	Planned Maintenance System
